\$1,500,000 YEARLY SAVING IN N. Y. CITY IN MERGING THE WATER SUPPLY SYSTEM

Ashokan Practially Completed at Cost of \$176,000,000-No Necessity of Schoharie Extension at Cost of \$30,000,000 More.

The Ashokan water supply system, constructed at a cost of approximately \$175,000,000, is practically completed. All the tunnel work has been done, the reservoirs are filing up, and within a short time this city should be enjoying a daily supply of 500,000,000 gallons of pure mountain water flowing through the mains under pressure sufficient to lift it by gravity to the twentieth stery of downtown buildings. This supply will be ample for the needs of the city for at least fifteen and possibly twenty years to

Supply and the city a plan to spend
\$50,000,000 more on the extension of
the system to the Schoharie supply,
which is considered inexhaustible,
This contemplated expenditure of \$30,000,000 is for something the people
will not need until the infants of towill not need until the infants of today are old enough to vote.

AN IMMENSE SAVING TO THE
CITY BY SIMPLE LEGISLATION.

With a breakdown of the distribution system somewhere between the Ashokan reservoir and the city. The Scoharie storage extension, being beyond the Ashokan reservoir, would be of no relief in such a contingency.

It would seem in the light of condi- A PAYROLL SAVING OF A MIL-

tions confronting the taxpayers that the Schoharie extension plan should be deferred until there is some sign of Board of Water Supply on June 20, a strain on the supply furnished by the Ashokan system. Such a procedure would require legislation involving a merger of the Board of Water Supply with the Bureau of Water Supply with the Bureau of Water Supply. Gas and Electricity thereby Supply, Gas and Electricity, thereby reducing materially the payroll cost of the first named body.

Of course, if the Schoharie extension plan is deferred until the city needs the water, there will be no excuse at this time for incurring an obligation to expend \$30,000,000. Therefore, there would not be issued \$20,-000,000 in bonds as a starter, and the city would save the interest on these bonds and the funding expenses as

bonds and the funding expenses as well.

All this would mean a direct saving to the city of approximately \$1,650,-000 the first year following the abandonment of the Schoharie plan and a rapidly increasing saving each year as the working force of the Board of Water Supply transferred to the Bureau of Water Supply transferred to the Bureau of Water Supply, Gas and Electricity was reduced.

In attempting to put through the plan outlined above the city would see the city would be city and the city will continue to the the city will continu

plan outlined above the city would meet with the determined opposition of the Board of Water Supply, the members of which cannot see even the beginning of the end of their Mbors and their \$12,000 jobs before 1922. However, the city is confronted with an absolute necessity for economy, and certainly it is a direct viola-

Save World's Babies From War's Ravages; GOVERNORS URGED A Woman Pacifist's Plea for Early Peace BY FORD TO MAKE

Motherhood Knows No Frontiers, Says Mme. Rosika Schwimmer, Leader of Hungarian Feminine Thought—A Physically Weakened Generation Will Have to Bear Staggering Burdens of Greatest of All War Indemnities.

By Nixola Greeley-Smith.

"Men invented nationality," observed Mme. Rosika Schwimmer. "Fundamentally the Norwegian idea is right," Mme. Schwimmer added, because the state's main concern men are mothers, and motherhood knows no frontiers. Women are too primitive and too sincere to be taken in by it. Primarily, women are mothers, and motherhood knows no frontiers.

"I am a Hungarian," continued the foremost feminist of the Magyar race, "but I join hands with the women of the belligerent nations who are fighting the Dual Empire, and plead with them for peace, because I of polygamous marriages." feel that the babies of the world must be saved—the Hungarian babies, the French babies, all the babies of war-shattered Europe. The cry of one new-born baby should be powerful enough to stop this war. It is weightier than all the reasons of all the Cabinets, the White Papers, the Gray Papers, the Green Papers—whatever the foolish colors upon which they print the property of polygamous marriages."

At this point an Englishwoman who had taken part in the conversation interposed to say to Mme. Schwimmer: "I do not agree with you that practical polygamy will have to prevail in Europe after the war. There wall in Europe after the war. There was the colors upon which they print the saved—the had taken part in the conversation interposed to say to Mme. Schwimmer: "I do not agree with you that practical polygamy will have to prevail in Europe after the war. There was the colors upon which they print the saved—the had taken part in the conversation interposed to say to Mme. Schwimmer: "I do not agree with you that practical polygamy will have to prevail in Europe after the war. There was the practical polygamy will have to prevail the saved—the had taken part in the conversation interposed to say to Mme. Schwimmer: "I do not agree with you that practical polygamy will have to prevail the saved—the had taken part in the conversation interposed to say to Mme. Schwimmer: "I do not agree with you that practical polygamy will have to prevail the saved—the had the practical polygamy will have to prevail the their foolish excuses and justifications."

I saw Mme. Schwimmer in New York just before she left for Washing. per cent."

Mme. Schwimmer dissented and a CITY LOT PRICES ON COUNTRY ton and, with Mrs. Philip Snowden, the English Suffragist, joined the group long argument followed, in which she

ton and, with Mrs. Philip Snowden, the English Surragist, joined the growth of pacifists who asked the President last week to make one more effort to stop the conflict in Europe.

I was not in sympathy with this fuller pilgrimage; I do not admire Jane Addams as a Mrs. Partington defining the probable position of womflower of Europe, the first and fittest to go to war. Because of this the last week to make one more effort to marshalled to her aid the mighty armies of the great dead who have fallen on the fields of Europe.

"Five million men have died already." Mme. Schwimmer said, "the flower of Europe, the first and fittest to go to war. Because of this the great dead who have ready pointed out the city would profit in suspending the Schoharie project by putting a sudden and marvellous decrease into the value of the lands likely to be taken over for reservoir and water shed purposes. Farmers, residents of villages, in fact, all land owners in the region which is to be taken over by the city for water supply purposes, have plastered city lot values on their holdings.

Experience has shown that they will cannot talk with any of the women compelled them to work, will Experience has shown that they will get very much more than their land is worth. Then, after they have sold their property, they tax the land held for water supply purposes and the city, after paying them exorbitant prices for their land, proceeds to pay most of their taxes.

predecessor in the role, And yet you cannot talk with any of the women eannot meet Mme. Schwimmer—without appreciating their splendid, if mistaken, motives.

Mme. Schwimmer received me in the most of their taxes.

Mme. Schwimmer received me in the may send us all back to the harem The Wice's Cargo Taken by Ger-

husband women would know that the one fixed value of life is the child sioners could be dispensed with. One should go into the new merger to superintend the turning on of the water, and the work of distribution and considerable of the old engineering staff would have to be retained until the system was in working order. Here would be a saving of \$250,000 a year.

The merger and the abandonment of the Schoharie project would prevent the issuance of bonds amounting to \$20,000,000. Here would be a saving in interest of \$1,000,000 a year. And, assuming that these bonds would be issued on a proper funding basis for fifty years there would be a saving of the children who will be born criptifity years there would be a saving of the children who will be born criptive. ifty years there would be a saving of the children who will be born crippled or diseased because of the injuries inflicted in battle upon their fathers.

I asked Mme. Schwimmer which

or financial position does not betray the high-born baroness but the un-protected shop girl and when the child's maintenance is based on the mother's status the future citizen gets very meagre support.
"In Norway to-day the natural child

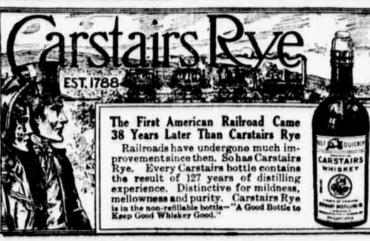

of the millionaire must be given by the father the support a millionaire's child is entitled to receive. And the child is entitled to receive. And the old trick of proving immorality on the part of the mother does not work. It is enough for the woman to establish that he might be the father of the child, and if he introduces evidence that other men may be similarly liable and proves it, the only good it does him is to compel them to share

The morality of the mother is a side

before the war ends will be ligible quantity, not more than one

"Do you think that the war, which ageneration must suffer, and for has forced many women to stand on all war indemnities will be paid by their own feet economically and has weakened or crippled children. That, she concluded, "is why the mothers of Europe say that this war must compelled them to work, will leave them better off than it found them, cease

CHEER UP-BRIGHTEN UP!

NY doctor will tell you that "the blues" is frequently A a symptom of constipation and its attendant evil, auto-intoxication. Take care of constipation and "the blues" will take care of itself.

But laxatives and cathartics won't cure constipation. In fact the indiscriminate drugging of the system with such remedies only aggravates the condition and tends to make constipation chronic.

Because of the evident dangers of the laxative habit, physicians everywhere are advocating the use of Nujol, a pure white mineral oil, which does not drug or physic but which acts as an intestinal lubricant.

Nuiol softens the contents of the intestines and lubricates the entire tract, so promoting normal evacuations. It is purely mechanical in its action, and is not absorbed into the system. Consequently it is not habit-forming and may be taken in any quantity without harm.

Write for booklet, "The Rational Treatment of Constipation." If your druggist cannot supply you, we will send you a pint bottle of Nujol prepaid to any point in the United States on receipt of 75c-money order or stamps.
